

InstructionParent Requests for Exclusion

Parents may request that their child be excused from the study of a given book, instructional unit or particular literary work. The Principal shall determine whether to grant such requests based on legal requirements relating to the request, the reason given for the request, the effect of the request on the student's educational development and the educational program, and the availability of alternative materials or instruction for the student. In the event the Principal does not grant the request, the parent may request a review be conducted by the Superintendent, based on the same criteria.
